Design -

The design for the Empress FS and FPI captures all the best features that cast iron has to offer - solid, timeless construction with detailed patterns and curves. The doors open to allow you to enjoy your fire to the fullest.

Performance -

FS and FPI - heat is easy to control with our automatic control system. The Empress stoves are thermostat compatible in Hi/Lo mode or Auto/Off mode.

FPI - We have incorporated a cast iron heat exchanger into the Empress FPI to maximize the heat output, yet keep rear height low. This insert also has an adjustable hopper and an easy vent disconnect to allow for a more versatile fit. The Empress sits only 9" onto the hearth and the sliding hopper lid makes the unit easy to fill with pellet fuel.

Empress Control Board

Antique White

Inferno Red

Pearl Grey

Diamond Black

Antique Chestnut

Optional cast iron colors available for the FS model. (Certain colors may require longer lead times.)

(FPI model available in Diamond Black, Matte Black, and Antique Chestnut only.)
